

Pneumatic Hand Pump

Vacuum or Pressure, Ranges up to 100 psig

Model Select Chart

Model	Description
CHP-P	Pressure calibration pump.
CHP-V	Vacuum calibration pump.

Accessories

Model	Description
CHP-KIT	2' hose and NPT fitting.

Specifications:-	
Output Ranges	: CHP-P: 0 to 100 psi; CHP-V: 0 to -28.8" Hg.
Process Connection	: Two 1/8" female NPT ports, one with a removable plug.
Materials	: Acetal plastic and anodized aluminum.
Pressure Limit	: 150 psig (10.34 bar).
Temperature Limit	: Not to exceed 150°F (65.6°C).
Displaced Volume	: Approximately 4 in ³ .
Dimensions	: 9" length x 1.5" diameter.
Weight	: 1.5 lb (680 g).
